A Junior Editor and Assistant Producer who loves the puzzle of post-production, taking raw footage and shaping it into a compelling story. Having worked across both physical production and the edit suite at Silverfish Studios, I know exactly what it takes to bring a project from a rough script to a polished final cut. Whether I'm leading an edit on a project, managing client feedback, or handling the logistical chaos of a live shoot, I bring an organized, calm, and methodical approach to the team.

WORK EXPERIENCE

Junior Editor / Assistant Producer | Silverfish Studios

October 2025 - July 2026

- Lead on a range of projects, independently editing short-form and long-form content using Premiere Pro to meet client briefs.
- Managed full life-cycle project logistics, including drafting contracts, processing invoices and creating production schedules.
- Collaborated closely with clients and producers throughout the review process, making rapid-turnaround revisions and delivering final cuts that are fully aligned with expectations.
- Integrated music, sound effects, text overlays, and subtitles into video timelines to help maximize audience engagement.

Production Assistant | Silverfish Studios

March 2025 - October 2025

- Supported the production team with daily operations, creating call sheets and maintaining clear communication between creative and post-production teams.
- Logged and tagged footage, created proxies, and synced multi-cam audio to prepare highly organised sequences and timelines for the editing team.
